TOTAL TECH - TGA 800 - SLIDING MOTOR

This product has been completely developed and built as European Standards.

Manufacture as European Standard

Sliding Gate Features and Technical Data:

- ❖ Timely resistance detection, automatic reverses when obstacles are met.
- ❖ Remote control with rolling code technology provides protection against unauthorized access
- ❖ Powerful AC motor with low noise and over heat protection.
- ❖ Emergency release provides manual operation in case of power failure.

Item	TGA-800
Max door weight	800 Kg
Input power	250 W
Working voltage	220V-240V
Thermal protection temperature	120° C
Motor rotate speed	1400 rpm
Moving speed	11.5 m/min
Working temperature	-25° C ~ +50° C

SLIDING MOTOR – TG/GULLIVER/1500KG

The *Gulliver 1500 automation system* for sliding gates and sliding doors from 1000 kg to 2200 kg, where an intensive heavy duty operation is required. The sturdiness and the choice of the details are guarantee of reliability in time. Thanks to the electronic clutch, the safety is assured. The Gulliver's control board is integrated in the case, making so still easier the already quick installation of Gulliver.

This automation gates is an electromechanical sliding operator for industrial gates, *Gulliver 1500* is the operator for industrial sliding gates. The built-in control board with anti-crush safety device, built-in 433MHz radio receiver, speed adjustment during normal cycle and slow down in opening and closing motor controller.

The Gulliver 1500 sliding gate operator system for the application of doors and gates can provide rapid, precise and stable programming and contributes to the quick installation of the Gulliver. The Gulliver range comes in a variety of weights and is also available in 24V dc.

TECHNICAL DETAILS

- ❖ Electromechanical automation, 230V ac or 400V ac and 24V dc.
- ❖ Suitable for gates from 1000 kg to 2200 kg
- ❖ Suitable for intensive, industrial and collective operation
- ❖ Easy to install, thanks to the adjustable fixing plate
- ❖ Integrated limit-switch
- ❖ Simple unlocking system by key
- ❖ Electromechanical brake to get a more immediate stop of the gate
- ❖ Internal ventilation to get a more intensive duty
- ❖ Grease soaked gear motor

GULLIVER MOTOR KIT ACCESSORIES

- ❖ Motor with built-in control board
- ❖ Remotes
- ❖ Photocells
- ❖ Flashing light
- ❖ Aerial
- ❖ Warning Sign
- ❖ Nylon rack, with metal interior
- ❖ Galvanized steel rack 30×12 mm with zinc plated spacers (per meter)

SLIDING MOTOR – TG/LIVI/400KG

Electromechanical operator for sliding gates

LIVI 400 is the operator for sliding gates from 350 kg to 900 kg, which combines a great sturdiness and reliability with an agreeable and original design, which has been marking out this product for several years. Thanks to the mechanical or electronic clutch, the safety is assured. The built-in control board with anti-crush safety device, built-in 433MHz radio receiver, speed adjustment during normal cycle and slow down in opening and closing motor controller by encoder provides rapid, precise and stable programming and contributes to the quick installation of the LIVI 400.

The LIVI 400 Range comes in both 6RR and 9RR versions and are also available in 24V dc.

LIVI MOTOR KIT ACCESSORIES

- ❖ **Motor with built-in control board**
- ❖ **Remotes**
- ❖ **Photocells**
- ❖ **Flashing light**
- ❖ **Aerial**
- ❖ **Warning Sign**
- ❖ **Nylon rack, with metal interior**
